

A Guide and Chart to help you compare removals quotes

Comparing removals quotes can be challenging and confusing, as different companies often quote in varying formats. Below is a chart designed to help you consider all the essential aspects of a quote, assisting you in making an informed decision about which company is the best fit for your needs.

*as key waives are not very common we prefer to absorb the costs when this does happen and it means that customers have one less unknown factor on move day.

Important questions to ask each company in addition to the above:

1. How do I book and pay for my move?
2. Can I pencil in a date?
3. What happens if the move goes over time?
4. What happens if I have a very long key wait? Will you still get me into my new home?
5. Do you outsource work or use your normal team?
